size

serine-type endopeptidase inhibitor activity

endopeptidase regulator activity

endopeptidase inhibitor activity

cell adhesion molecule binding

alditol:NADP+ 1-oxidoreductase activity

protein homodimerization activity

phospholipid binding

nucleoside-triphosphatase regulator activity

GTPase regulator activity

phosphatidylinositol binding

lipid binding

GTPase activator activity

phosphatidylinositol bisphosphate binding

transmembrane signaling receptor activity

molecular transducer activity

signaling receptor activity
